

PACHRA CHR Conference - You're in good hands with CHRs in all the work we do”

The December 2006 PACHRA conference was a success. The programs have been working hard and they seem to be doing great! The presenters were wonderful and they provided the CHRs with valuable information on PCC reporting, data entry, diabetes, methamphetamines and the importance of our vigilance. This information will help us with our daily work in the community.

The conference also elected Danielle Sine from Hualapai as the editor and honored those for their service. Awards were given to 15 CHRs who have given 5 to 35 years of service.
